

# Compact Track Loader Simulator Training Pack

## Simulated Equipment Specs

**Attachments:** Forks & bucket

**Vertical lift, track loader**

**Operating capacity:** 2,000-3,000 lbs  
(907-1,360 kg)

**Engine power:** 65-80 hp)

## Overview

Based on stringent labor recommendations, the Intellia Compact Track Loader Simulator Training Pack is the most comprehensive solution available for training novice operators to competency. The training pack uses CM Labs' award-winning soil simulation and authentic machine behavior to offer the only compact track loader simulation that accurately replicates machine stability, reducing the risk of tipping accidents. As a result, trainers can use this training pack to quickly train operators, improve productivity, and enhance safety.

## Key Features & Benefits

**Progressive learning program** that helps build skills and confidence, including familiarization with load handling and excavating.

**Best-in-class vehicle and soil simulation** that ensures trainees understand how the equipment works and what is required for efficient, safe operations.

**Performance metrics and reporting** that provide trainers with real-time feedback on operator aptitudes and habits, as well as an overall score.

## A Complete Training Solution

The Intellia Compact Track Loader Simulator Training Pack is the only simulation-based solution of its kind that accurately replicates machine stability, providing realistic training opportunities to help reduce the risk of accidents. The simulated machine behavior helps operators gain a better feel for the impact of gear shifting and throttle use. As a result, it teaches the most transferable skills of any simulation training solution for compact track loader, improving operator cycle times to reduce production costs.

Trainers can also take lessons to the next level with Intellia's suite of instructor support tools, which offer next-generation reporting, trainee monitoring, and custom learning path planning features.

## Dedicated to Your Training Success

CM Labs' simulators are built to last and designed for years of 24/7 operator training. The training packs are compatible with various hardware configurations, designed to fit your budget, space, and specific training needs. Choose from:

- Portable **Edge Plus** desktop series
- Compact motion-enabled **Edge Max** series
- Fully immersive **Advantage** series

## Learning Outcomes

- ✓ Controls familiarization
- ✓ Trailer loading and unloading
- ✓ Load handling
- ✓ Stockpiling
- ✓ Live attachment change
- ✓ Truck loading
- ✓ Skills challenge
- ✓ Sandbox

## Performance Metrics

The training pack tracks over 20 different metrics, including:

- ✓ Safety violations (such as tipping or collisions)
- ✓ Cycle time efficiency

## Compatible Industry-Grade Controls

- ✓ Joystick controls
